
CMI boss Leo Kyanda sacked by Museveni

Isn't he one of his numerous sons? His inconsistencies while disciplining are coming to bear on his own family. Need I gloat about this, but of course, what goes around comes around. The guy never sticks to the rules and consequences that he sets up, they get swayed for the long nosed few and as a result they cross boundaries, if there are any - wink :ohmy:

Maybe the cry of the common man is starting to bear fruits---this CMI is a very complicated security organisation now the top gun is sacked-----let us see what happens next.
