Rambuka, i think the temperament of Afrians is so high, why should a poor man be killed because of only enkokko, This reminds of one German quotation depicting the tempers of Africans: "Wenn Sie auf einem Afrikaner, Unterhalt durchaus rächen möchten, wenn Sie Missbrauch, er nicht werden, kämpft er Sie gerade." Meaning "If you want to revenge on an African, keep quite , if you abuse, he wont, he will just fight you". This had risen from the continous battering of Germans by Africans who always faced charges after. All in all, many innocent people have been killed by the mob. Every one has a right to live.
